

## Longworth Allotments Annual Report

The allotments had another good year for produce with most people reporting excellent crops. The exception was tomatoes as this year we had stem rot ride through almost everyone's crop and was very disappointing after all the hard work to get them so close to cropping, never mind better luck this year.

We have had 3 new plot holders over the last 12 months who have been very enthusiastic.

We continue with the problem of people walking their dogs on the allotment despite the notices that have been erected, some are allowing them to foul, and not clear up. This is completely unacceptable especially in an area where crops are being grown and people are working hard to maintain their plots.

We had 4 allotment holders give up their plots this year 2 with ill health 1 moved away and 1 who had a change in personal circumstances. This means we currently have 5 plots available to rent and would welcome new people to join us our rents are very reasonable, these are some of the lowest rents in the area, we have water on site, and we encourage people to come and have a go it is not as hard as you think, cheaper than the gym and with a lovely reward for your hard work. Just give me a call 01865 821480 to discuss.

Wendy Woodford and The Allotment Committee.
